can be greatly increased, by giving special care to the health of every animal and fowl on the farm.

Sick poultry, sheep, cattle, hogs, horses, etc., depend on their livers to keep them well

Black-Draught
Stock and Poultry Medicine

keeps their livers working and therefore keeps them well.

Black-Draught Stock and Poultry Medicine is a pure, natural, vegetable, blood purifier, and acts by regulating the stomach, liver and bowels.

It prevents and cures Hog Cholera, Chicken Cholera, Colic, Distemper, Coughs, Colds, Constipation, Fever, Loss of Appetite, Wasting Away, and all the common stock diseases.

It is a perfect medicine for general farm use. Try it.

Price 25c for a large can, at all druggists and dealers

Y. M. C. A. in Kentucky.

The State Executive Committee of the Young Men's Christian Association of Kentucky, in response to the needs of the work throughout the State, is planning for a vigorous and aggressive campaign during the coming fall and winter. Mr. Rosevear, the State Secretary, has been occupied during the past few weeks in filling the vacancies on the secretarial force of the state committee, so that all departments of the state work may be fully manned by September 1st.

The vacancy caused by the death of Mr. Van Horn a few months ago has been filled by Mr. John S. Moore, of St. Louis, Mo. Mr. Moore is a graduate of the University of Nebraska, and has served as student secretary of the Missouri associations, and for the past two years has been religious work director of the St. Louis association. In addition to the promotion of the religious work of the Kentucky associations, Mr. Moore will also supervise the student organizations throughout the state.

Mr. Jas. H. Anderson, a graduate of the Secretarial Training School at Chicago, also a business college, and recently engaged in association positions in Tennessee and Pennsylvania, is the new office department secretary of the state committee.

The position of financial department secretary of the committee, formerly occupied by Mr. B. W. Godfrey, who went to Dayton, Ohio last month, has been filled by Mr. E. M. Thommasson, of Topeka, Kansas. Mr. Thommasson, a graduate of Knox College, Illinois, has been one of the assistant state secretaries of the Kansas associations, and previously occupied a similar position in Illinois. He will be related to the securing of the annual current expense budget of the state committee, and the raising of the endowment fund for the state work.

Mr. Rosevear states that the condition of the association work in Kentucky was never more satisfactory than at the present time, and that there is every indication that the year 1906 will far exceed the record of any previous year. Especially will this be true as regards the building movements in the city, county and railroad organizations of the state. The funds for new buildings at ten points have been secured, and canvasses are in progress or in process of organization at eight other places.

The annual conference of the employed officers of the Kentucky associations will be held at Anchorage, September 12 and 13.

Luckiest Man in Arkansas.

"I'm the luckiest man in Arkansas," writes H. L. Stanley, of Bruno, "since the restoration of my wife's health, after five years of continuous coughing and bleeding from the lungs, and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for consumption, which I know from experience will cure consumption if taken in time. My wife improved with first bottle and twelve bottles completed the cure." Cures the worst coughs and colds or money refunded. At R. C. Hardwick's, druggist, 50c and \$1.00. Trial bottle free.

How to Make Hens Mould Out of Season.

Mr. Henry Van Dreser, the famous New York expert, claims to have made a discovery of the greatest interest to the poultry business. This is nothing more nor less than a plan to make hens moult out of season. The object of this transference of a natural process is to make hens lay the bulk of their eggs when most hens are not laying at all, and the prices are away up. The process, as explained by Mr. Van Dreser, himself, is about as follows: In August the wealthy people of New York City, who eat high priced eggs, are off to watering places or pleasure resorts in Europe, and the eggs are not needed. It is then that Mr. Van Dreser makes his hens moult and get ready for fall business. For two weeks they are shut up in the pens and fed only one-quarter of a full ration. This reduces their flesh. Then they are let out into the sunshine and open air and fed with a rush the best possible food, all they can eat, peas, oats, wheat, corn and particularly sunflower seed. This soon loosens up the old feathers and they drop off so fast as to almost leave the hens bare.

Under this heavy feeding the birds soon take on new plumage and the reddening of the comb, which gives promise of fruitfulness. So, about the time the aristocracy returns to town and hens generally are on a strike, these freshly moulted Leghorns are doing almost full work. This will appear to most poultrymen as the missing link that will bring success. It seems to be something entirely new and yet strictly scientific and feasible. Of course when everybody gets to doing it there will be no object in so doing, but before the others catch on it would appear to be a "great scheme."—American Poultry Advocate.

Legend of Hoopoe's Crown

That interesting bird, the hoopoe, is now represented in the Zoological Society's menagerie. Compared with a bird of paradise, the hoopoe is a humble looking creature in red, sandy plumage, barred with black, but in its way it is beautiful. It has a large curved beak and its head is adorned with a crest of stiff feathers. The hoopoe is well known in Asia, as well as in Europe. There is a Spanish legend concerning it which has been related by Kirgley.

The story goes that once upon a time the holy birds who run up and down on the Prado at Seville among the ladies' pretty feet, had golden crowns on their heads. One day the birds and beasts all went to pay homage at the court of King Solomon, and among them, of course were the hoopoes. When their turn came they made their request, which was that the king would pray for them that their crowns might be changed.

So King Solomon prayed, and instead of golden crowns they received crowns of feathers. Ever since then the legend continues, the hoopoe: "live as merrily as crickets in an oven, and also have the honor of bearing the name of his Most Catholic Majesty King Solomon."—Pall Mall Gazette.

Limber-Neck Again.

Limber-neck is a symptom of some disease or disordered condition of the bird. The bird's neck and head hang down as though the neck was broken, and the fowl cannot hold head erect. It is a symptom of brain and nerve disturbance. The treatment must be governed by the cause. Fighting in large combed cocks will cause it. Rest treatment is usually all that is needed. Fright or over-exercise from being "run" will cause it in some birds. Rest is the treatment here also. Over-eating of worms or maggots will cause it. A few drops of spirits of turpentine administered in bread pills will usually cure. Intestinal parasites will cause it, and if they are found, treat for them.—Dr. Woods' in Poultry Monthly.

The Delineator for September is packed with good reading matter for everyone. The woman of fashion will find much of interest in the many pages devoted to dress, millinery and neckwear; and those who are otherwise inclined may derive a great deal of pleasure and entertainment from the literary features provided in this number. Barry Pain, the well known humorist, contributes the first chapter of "The Diary of a Baby," a story that promises to be one of the brightest and cleverest this author has ever written. Everyone must enjoy the observations of this precocious baby, and follow with amusement its building career.

Do You Feel Chilly, Then Feverish and Ache all Over?

Feel Worn-out, Blue and Tired? Have You a Fresh Cold, With Frequent Hacking Cough? Sensation of Soreness in the Chest or Back?

Don't let your case run into bronchitis, or some other obstinate and dangerous malady. The very best medicine to take in such a case is Dr. Pierce's Golden Medical Discovery. Made without alcohol or dangerous drugs, it contains that rare combination of native medicinal roots that will allay a cough (iron it out, as it were), restore the circulation, assist the appetite and digestion, and consequently restore tone to the entire system. That is the reason people look happy once more after taking it—they feel like living, because their liver is active, the blood in their arteries is full of that life-giving quality—rich, red blood. The blood in turn feeds the nerves.

Nervousness and neuralgia are only the indication that the nerves are not fed on invigorating blood. This "Medical Discovery" of Dr. Pierce is nature's own restorer. It tones up the organism and invigorates its functions, furnishing to the body one of its necessary constituent principles of which it is in need.

This preparation is of pleasant taste, agrees perfectly with rebellious and sensitive stomachs, and is extremely effective in restoring tone and vigor to the entire system. It cures troubles of the stomach and at the same time the blood-vessels are given such a toning up as to

throw off a cold. One very good reason why it restores the health of run-down, pale and emaciated people is because it first throws out the poisons through the liver and kidneys. It then begins its reconstructive work in building up flesh and making good, rich, red blood.

"I have been a sufferer from indigestion for some thirty years, at times writes Mr. S. W. Mullens, of Cincinnati, O., and have used medicine from several of our best physicians, which gave me only a little temporary relief. They said I could never be cured. Last winter I was stricken with the worst spell that I ever had. I suffered with such severe pains in the pit of my stomach that I could neither work nor sleep, and my weight went down from one hundred and ninety-five pounds to one hundred and sixty pounds in about two months' time. I then concluded that I would try Doctor Pierce's Golden Medical Discovery. By the time the first bottle was gone, I felt some relief from my severe suffering so continued until I had used four bottles of 'Golden Medical Discovery.' I am truly thankful for the great benefit which I have received from your medicine, and can cordially recommend it to others."

It Stands Alone not only in respect to its ingredients but also as the only medicine for stomach, liver and blood disorders, which absolutely contains PURELY VEGETABLE AND PERFECTLY HARMLESS INGREDIENTS, WITH NO ALCOHOL.

It Stands Alone as the best all-therapeutic medicine, the makers of which take their patients fully into their confidence and tell them exactly what they are taking. This Dr. Pierce can afford to do, because his "Golden Medical Discovery" is made of such ingredients and after a working formula that has thousands of cures to its credit, placing its merits above criticism.

It Stands Alone as Nature's cure for many chronic diseases and its ingredients are: Golden Seal root, Queen's root, Stone root, Black Cherry bark, Bloodroot, Mandrake root, and chemically pure glycerine.

Remember these are the ORIGINAL Little Liver Pills first put up by old Dr. R. V. Pierce, over 40 years ago, and although much imitated, have never been equaled. Made of concentrated and refined medicinal principles, extracted from native American plants and roots, therefore purely vegetable and perfectly harmless. One little Pellet for a stomachic, or stomach and bowel regulator, three little granules for a cathartic.

Where Health and Pleasure May be Found!

Dawson Springs, Kentucky

HOTEL - ARCADIA.

The waters are world wide in the celebrity. The Hotel with a capacity to take care of 200 people, is situated on the Kentucky Division of the I. C. R. R., about 200 feet from the railroad station, surrounded by a beautiful maple grove. The old chalybeate well is in the yard, and the celebrated salts well about 100 yards from the Hotel. The wells are owned by the Hotel Arcadia and the guests of the Hotel have free access to them. An Italian Band will be in attendance during the entire season.

A. C. KUYKENDALL, Principal Male Department.
H. CLAY SMITH, Principal Female Department.

Situations Guaranteed.

THE WORLD'S LEADING COMMERCIAL SCHOOL

We do not guarantee situations to prospective students in order to get their patronage. Schools of merit do not resort to such dishonest practices.

Fake schools "guarantee" situations in order to secure students, because they have no other inducements to offer.

Our work is so thorough that a guarantee is superfluous. Business men are so eager to get competent help here that a large per cent of our students take positions before they graduate.

See us before making arrangements for your business and shorthand and stenography at some inferior fake school. We will take pleasure in telling you all about the holes in the "position guarantees" of dishonest schools. Catalogue free.

BRYANT & STRATTON BUSINESS COLLEGE, Louisville, Ky.

They Go.

We never could understand when a thieving epidemic breaks out among bank presidents and cashiers, some newspapers will head their articles, "Still They Come." Why not head them "Still They Go?"—officers, and money too.

"Suffered day and night the torment of itching piles. Nothing helped me until I used Doan's Ointment. It cured me permanently."—Hon. John R. Garrett, Mayor Girard.

His Last Raid.

Will T. Hobby, a farmer, at Franklin, Ky., shot into a gang of several boys Wednesday night who had entered his watermelon patch. Henry Jones was found dead the next morning near the patch with several shot in his head. He was 20 years old.
